WSDD – Assignment – Report Template

For this project, you will design a small website for a business or organisation. First, decide on the type of business or organisation and then search online for websites with a similar purpose.

Purpose: To design, develop, and publish a website. Your website will contain a homepage and four more pages.

- **Use HTML5.**
- **The only style for text, colour and page layout set from an external CSS stylesheet is acceptable.**

Complete the Outline section of your Project Diary.

Outline of the website [10 marks]

- Write the title
- Write in your own words, what the website is about
- Write what the purpose of the website
- Write about the target audience and accessibility considerations.
- Word count: 500 [Max]

Details of organization or business

aibiTsuu film Productions is a film production company. aibiTsuu Film Productions was founded by a group of passionate filmmakers who strive to tell compelling stories that resonate with audiences worldwide.It aims is to create and produce quality films and videos for various platforms.

Purpose and intended audience of your site.

Provide potential clients and audiences with a platform to learn more about aibiTsuu film Productions and its services. The website will also serve as a hub for the company's latest news and updates.

Describe the 2 best features of your website and how they work.

1.Scroll Back to Top Button, I use it in each of my page, this Button will appear on the right when the user scrolls down the webpage. This can help the user quickly jump back to the top of the page.

2. Slide show, I use it in page About-us. The slideshow consists two images with controls that allow the user to move forward or backward through the slideshow. This feature can provide user with a visually appealing experience on the website.

Screen shots of representative sample of pages in your site

Our Services
we offers a range of film production services divided into categories, including pre-production planning, filming, editing, post-production, and distribution. Each service is tailored to the client's needs and goals.
PRE-PRODUCTION
Our pre-production services focus on planning and preparation before filming begins. We work closely with our clients to develop a concept, create a storyboard, and write a script. We also handle location scouting, casting, and scheduling.
PRODUCTION
Our production services involve the actual filming and recording of the project. We use state-of-the-art equipment and techniques to capture high-quality footage and audio. We handle everything from lighting and sound to camera operation.
POST-PRODUCTION
Our post-production services focus on editing and refining the footage and audio that was captured during filming. Our services include video editing, audio editing, color correction, special effects, and more.
